

Example 9

This is a page which shows you how illustrations, grids and the place tag work.

This is an illustration

The red circle you can see is an *illustration*, not a *pageGraphic*.

So is the teal colored one.
These are all flowables in the story.

This is a use of *place*

This is a flowable. In this case, it is in a `<para>` tag, but it could be any flowable. It has been placed inside a grid, but you could put it inside any `graphic` or `pageGraphics`. Using the `place` tag, you can have complete control over where you want your flowables to appear.

You can include Greek: αβγδ.

Or even

a `blockTable`.
